

# Starting with Angular 5

## Course Overview

This course will introduce students to Angular 5, including components, routing, services, modules, styling, directives, pipes, and forms.

|   |     |
|---|-----|
| <b><u>Chapter 01 - Angular 5 Update</u></b>   | 7m  |
| Course Introduction                           |     |
| What is Angular                               |     |
| How This Course Works                         |     |
| The Course Outline                            |     |
| <b><u>Chapter 02 - Let's Get Started</u></b>  | 29m |
| Section Introduction                          |     |
| What Do We Have Here                          |     |
| Angular Architecture                          |     |
| From Scaffold to Application                  |     |
| Section Summary                               |     |
| <b><u>Chapter 03 - Angular Components</u></b> | 16m |
| Section Introduction                          |     |
| Create a Components Project                   |     |
| Working with Components                       |     |
| Section Summary                               |     |
| <b><u>Chapter 04 - Angular Routing</u></b>    | 19m |
| Section Introduction                          |     |
| Create a Routing Project                      |     |
| Let's Do Some Routing                         |     |
| Section Summary                               |     |
| <b><u>Chapter 05 - Angular Services</u></b>   | 45m |
| Section Introduction                          |     |
| Create a Services Project                     |     |
| Start Building Services                       |     |
| Wiring Services Up                            |     |
| Accessing Services                            |     |
| Service-Enabled Components                    |     |
| Finalizing our Services Implementation        |     |
| Section Summary                               |     |
| <b><u>Chapter 06 - Angular Modules</u></b>    | 29m |
| Section Introduction                          |     |
| Modules Defined                               |     |
| Refactoring for Modules                       |     |

Finish our Modules Refactor  
Section Summary

**Chapter 07 - Styling Angular**

21m

Section Introduction  
Integrate the Module  
Style our Components  
Section Summary

**Chapter 08 - Directives and Pipes**

15m

Section Introduction  
Directives  
Pipes  
Section Summary

**Chapter 09 - Angular Forms**

27m

Section Introduction  
Types of Forms  
The Angular Forms Module  
Implementing Reactive Forms  
Styling Reactive Forms  
Section Summary

**Chapter 10 - Course Conclusion**

4m

Course Conclusion  
What Now?

**Total Duration: 3h 32m**
